ABOUT JINRUI

Shanghai Jinrui School is a private international boarding school in Shanghai. Founded in 2022 by Dr. Cheng Hongbing, a nationally recognized master principal in China, the school launched its High School Division in September 2024, welcoming its first cohort of students into an IGCSE and A-Level programme.

Jinrui is guided by its core values of **Integrity, Justice, Logic, and Compassion**, which inform both its academic and broader educational approach. In April 2026, the school entered into a strategic partnership with Shanghai World Foreign Language Education Group (WFL Education), strengthening its academic leadership, curriculum development, and faculty resources. Mr. Xu Jian, President of WFL Education, also serves as General Principal of Jinrui, providing leadership across both institutions and supporting the continued development of Jinrui's academic and educational programmes.

As a developing international high school, Jinrui is committed to combining rigorous academic preparation with intellectual curiosity, character development, and an understanding of China and the wider world. The school seeks to equip students with the knowledge, reasoning skills, and sense of responsibility needed to engage thoughtfully with an increasingly interconnected world.

IG History	A Level History	Academic Writing	

ELECTIVE COURSES: SCHOOL-BASED COURSES

Critical Thinking and Debate	Philosophy in Pop Culture
Community and Project Management	Storytelling in the Digital Age
The Museum Odyssey	Introduction to Data Science
Global Economics and Businesses	AI for Social Good
Personal Finance and Wealth Management	Smart Cities and AI Technologies
Jinrui Banking	

THE SIGNATURE 4S PROGRAM

At Jinrui School Shanghai, we believe that while a rigorous academic framework provides students with essential tools for deep thinking, true education requires real-world scenarios to apply those tools and create value. This philosophy is embodied in our Featured 4S Program, an interdisciplinary, project-based framework centered on Socialization and Practical Skills.As a cornerstone of the 4S Program, each student is required to present an original academic research paper before graduation.

The 4S Program is structured around four pillars designed to cultivate holistic growth and university readiness:

Speech of the World:

Students engage in intellectual discourse through lectures by industry elites and global admissions officers, broadening their perspectives on emerging global trends.

- 2025 TedxJinri Event
- 2026 TedxJinrui Event
- Speech Club
- Voice Acting Club

Spirit of Leadership:

Through diverse extracurricular initiatives, students move from participants to organizers, fostering the emotional intelligence and agency required for future leadership.

- Student Union
- Welcome Gala
- Orientation Evening
- Jinrui Music Festival
- Graduation Ceremony

Social Practice:

Immersive career experiences and community service bridge the gap between the classroom and society, encouraging civic responsibility and professional exploration.

- Community Service Club
- Inter-School Basketball Tournament
- Inter-School Soccer Tournament

Subjects in Research:

Utilizing Project-Based Learning (PBL), students tackle complex, real-world problems, developing the transdisciplinary research skills essential for higher education.

- Ancient Town Revitalization Project
- Business Case Competition
- Debate Competition
- Model UN Conference

Our students'journey is defined by high-impact experiential learning. Recent highlights include cross-cultural exchanges with the UK's Blue Coat School, historical research on Yin Dynasty culture in Henan, and urban orienteering through the "Decoding Shanghai" project. On campus, student agency is showcased through the organization of TEDxJRSS, Model United Nations, and the "JR Planet" Debate Series, as well as monthly charitable initiatives.

EXAMINATION RESULTS

Across the October 2025 and January 2026 examination series, a total of 72 students sat 223 A Level and IGCSE examinations. Our students achieved an outstanding overall A/A* rate of 90.6%, remaining among the top-performing schools in Shanghai.

GOLDEN ROC PROJECT — CROSS-CULTURAL EXCHANGE

The Golden Roc Project is designed to broaden students' global perspectives through direct engagement with schools, universities, and communities around the world. Through international visits and reciprocal exchanges, students have had opportunities to explore educational systems, cultural traditions, and social environments across the United Kingdom, United States, Italy, Denmark, Argentina, Japan, and other countries and regions. Rather than focusing solely on sightseeing, the project emphasizes meaningful dialogue and first-hand learning. Students interact with peers and educators from different cultural backgrounds, visit local schools and institutions, and reflect on how education, society, and culture shape people's perspectives and experiences.

- Aug 2024: Academic visits to the University of Oxford and University of Cambridge (UK)
- Oct 2024: Hosted visit from Malvern College (UK)
- Jan 2025: Visit to Charlotte Country Day School (USA)
- Mar 2025: Hosted visit from Woodward Academy (USA)
- May 2025: Visit to Syracuse University Florence Campus (Italy)
- Aug 2025: Visit to the Escuela Industrial Domingo Faustino Sarmiento / Secondary School affiliated with the National University of San Juan (Argentina)
- Aug 2026: Visits to Elim Christian College and Mokau School (New Zealand)
